FLEETANA

COMPANY PROFILE

Your whole fleet.
One place.

Fleet and cost visibility, built for Saudi fleets

FLEETANA

Who
we are

Fleetana is fleet-management software built in Saudi Arabia for the people who run vehicles.

- One platform for vehicles, drivers, routes, fuel, service, inspections and work orders
- Shows what every vehicle is doing and what every vehicle costs
- Web app for managers, mobile app for drivers and technicians
- Arabic and English throughout, SAR with 15% VAT

FLEETANA

Vision & mission

VISION

Every Saudi fleet run on facts, not spreadsheets.

MISSION

One place to see every vehicle, its cost and its next job.

FLEETANA

01

The problem

Fleets run on spreadsheets, receipts and memory

FLEETANA

Where does your fleet's money go?

Spreadsheets

Service dates, plates and Istimara expiries live in files nobody updates on time.

Receipts

Fuel and repair spend sits in drawers and photos, so odd fill-ups go unnoticed.

Blind spots

Nobody can say which route a vehicle took, or how long it sat idling.

Chat threads

Checks, faults and approvals happen in WhatsApp, and nothing links back to the vehicle.

FLEETANA

02

Two kinds of visibility

Know what your fleet is doing. Know where its money goes.

FLEETANA

Know what every vehicle is doing

Live map

Every vehicle as moving, idle, parked or no signal, updated every few seconds.

Trip replay

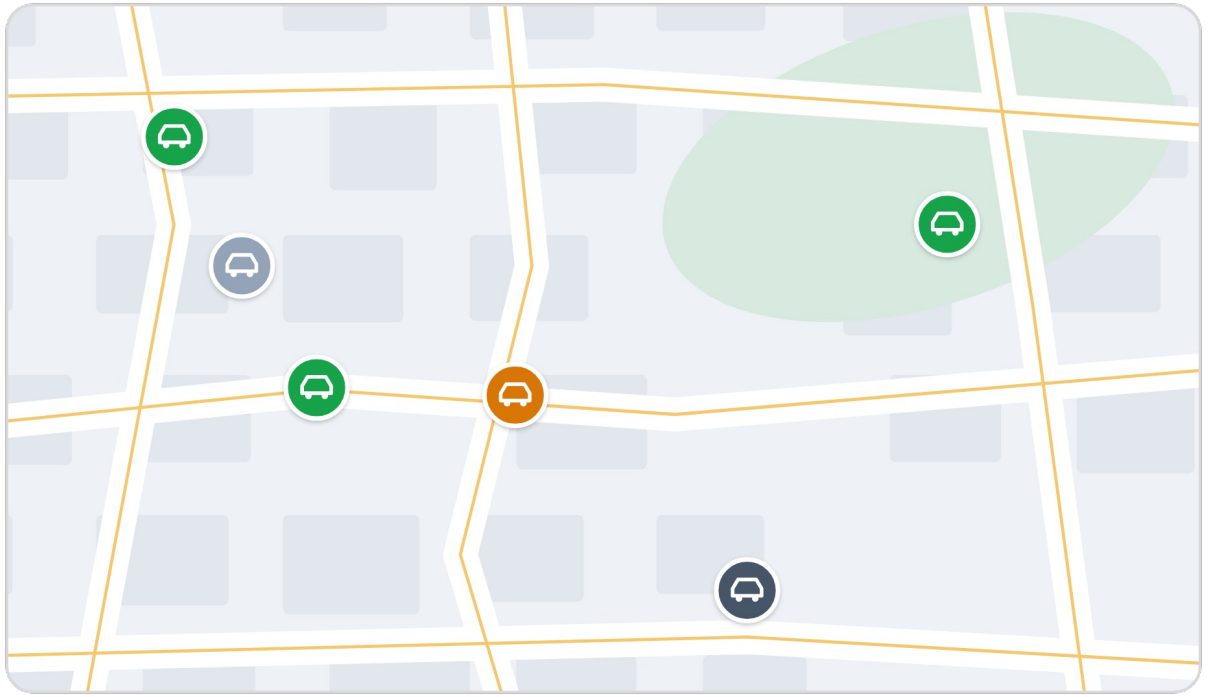

See the exact route each vehicle drove, stop by stop.

Idle time

Engine-on minutes per trip and per day, for every vehicle.

Driver scores

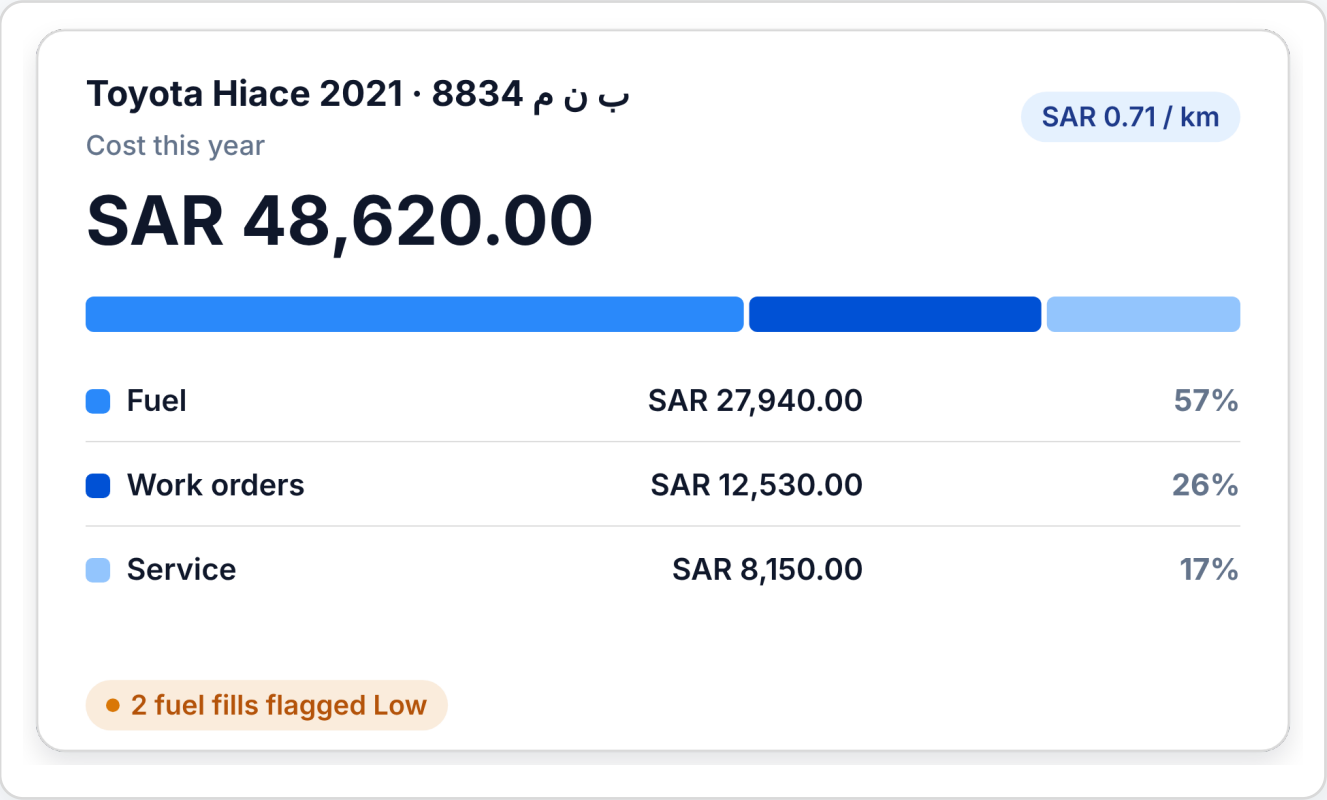

Harsh driving, speeding and collisions turned into a 0–100 score.

Requires a GPS tracker

FLEETANA

See where your fleet's money really goes

1 **Cost per vehicle**

Fuel, service and work orders add up on each vehicle, in SAR, with cost per km.

2 **Fuel anomalies flagged**

A full fill below 70% of that vehicle's 30-day average is flagged Low.

3 **Every riyal itemised**

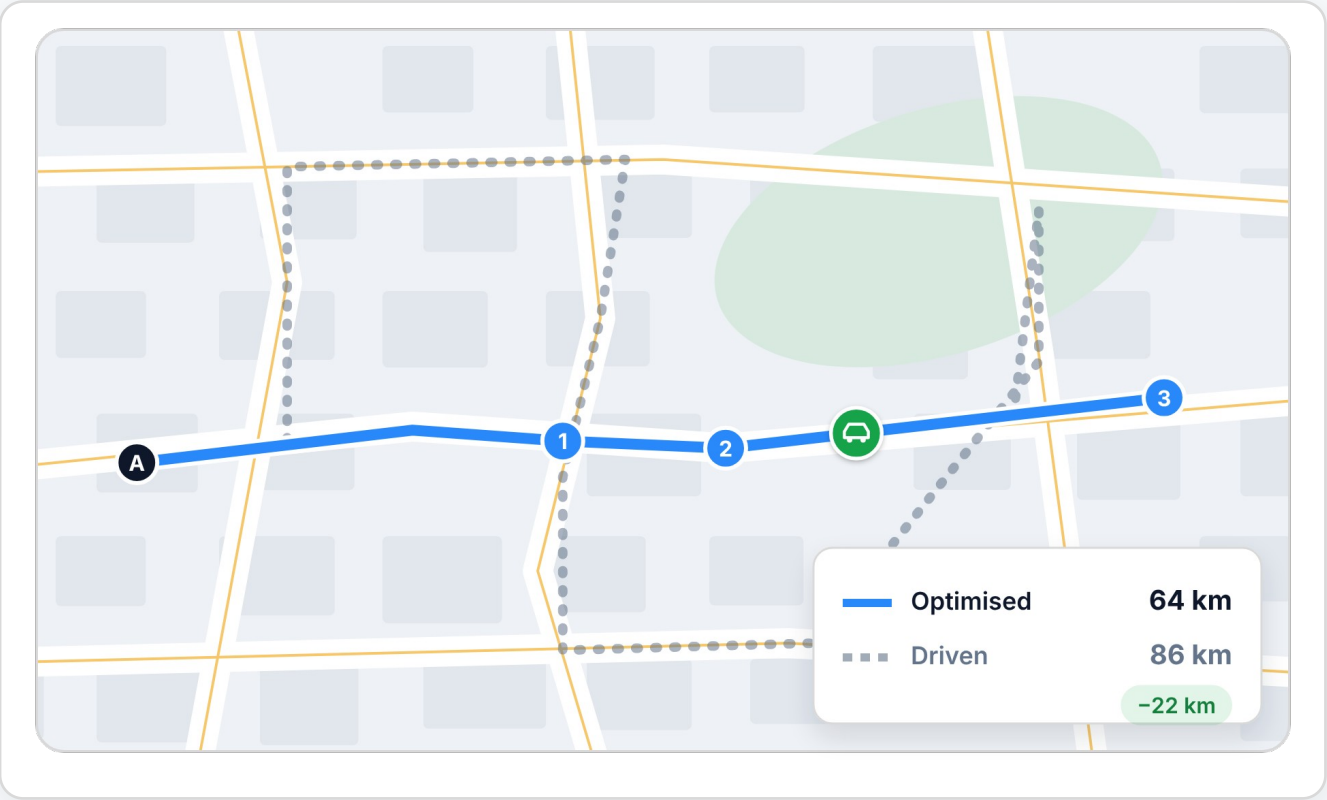

Work orders split parts, labour and fees, with 15% VAT.

4 **Warranty on record**

Check the warranty before you pay for the same repair twice.

FLEETANA

Shorter routes, less fuel

1 Optimised routes

Fleetana orders your stops into the shortest route before the vehicle leaves.

2 Planned vs driven

Compare the route you planned with the route actually driven.

3 Fewer wasted kilometres

Every kilometre saved is fuel, time and wear you don't pay for.

Requires a GPS tracker

FLEETANA

Find the leaks.
Fix them.

Cut idle time

See which vehicles idle longest, and when.

Drive shorter routes

Optimised stop order, every day.

Question odd fills

Low fills flagged against each vehicle's own average.

Coach your drivers

Scores show who needs a word, and why.

Service before breakdowns

Due by km, engine hours or date.

Retire the costliest

Cost per vehicle and per km, side by side.

FLEETANA

03

The platform

Everything that touches your fleet, in one place

FLEETANA

Everything that touches your fleet

Vehicles & documents

Plates, drivers, Istimara, insurance and Fahes for every vehicle.

Service & maintenance

Programs by km, engine hours or date. Due soon and overdue at a glance.

Fuel

km/L on every full fill. Low fills flagged.

Inspections & issues

Custom checklists with photos. A failed item opens an issue.

Work orders & parts

Parts, labour and fees, with 15% VAT and approval steps.

Live map & routes

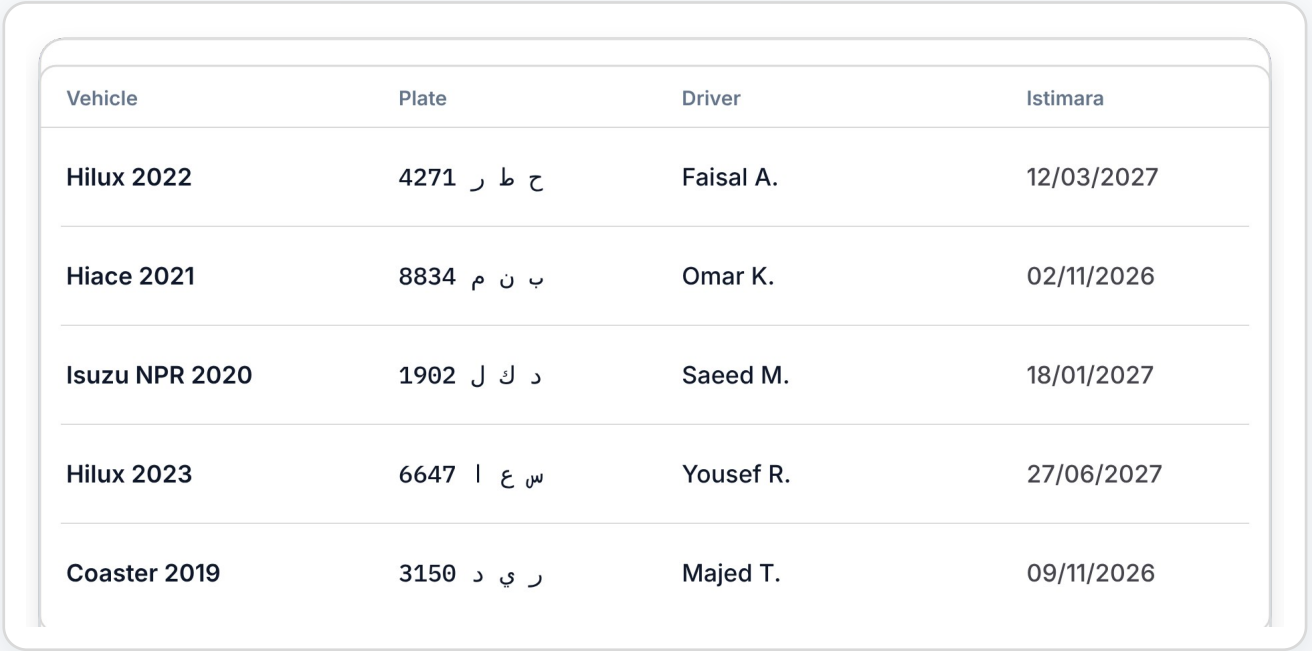

Live positions, trip replay, optimised routes and driver scores.

GPS tracker

FLEETANA

Every vehicle, one record

- Plate, VIN, make, model, driver and status for every vehicle
- Fuel, service, issues, inspections and work orders all link to the same vehicle
- Istimara, insurance and Fahes listed 30 days before they expire
- Statuses from Active to In shop, Out of service, Sold and Retired

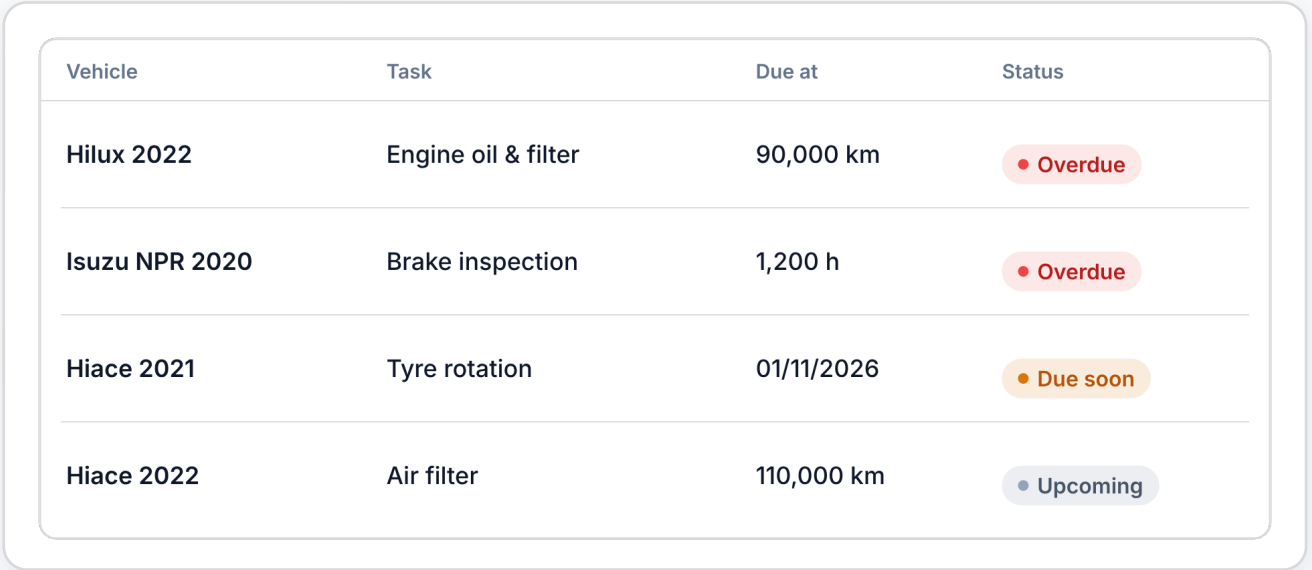

Vehicle	Plate	Driver	Istimara
Hilux 2022	4271 ر ط ح	Faisal A.	12/03/2027
Hiace 2021	8834 م ن ب	Omar K.	02/11/2026
Isuzu NPR 2020	1902 ل ك د	Saeed M.	18/01/2027
Hilux 2023	6647 ا ع س	Yousef R.	27/06/2027
Coaster 2019	3150 د ي ر	Majed T.	09/11/2026

FLEETANA

Service on schedule, not after breakdowns

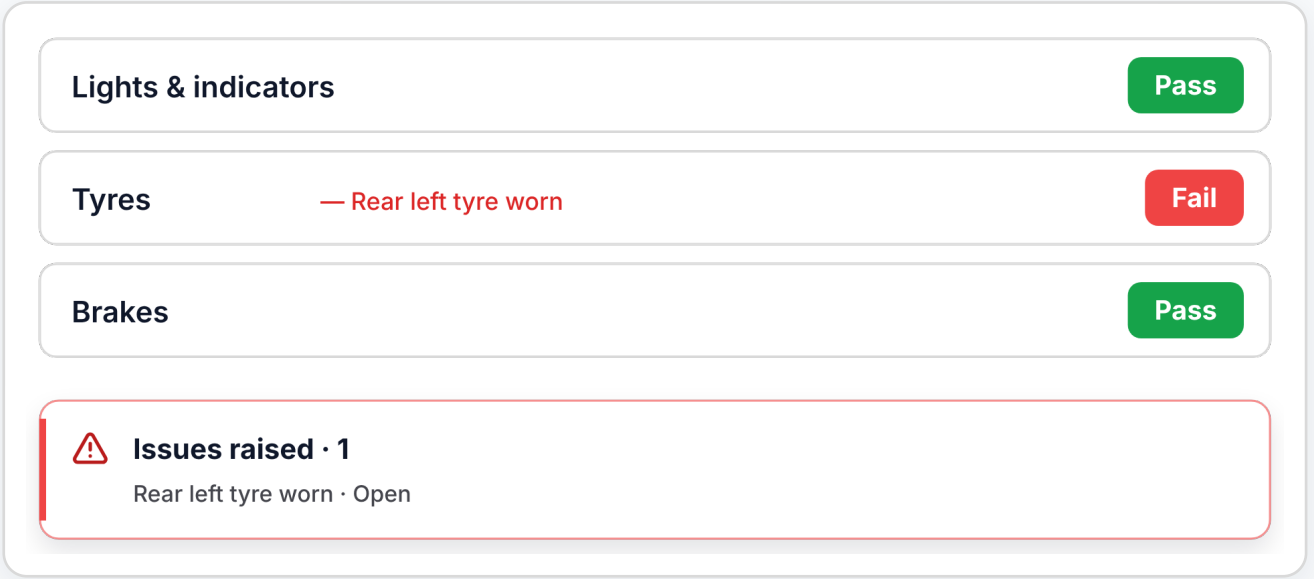

- Service due by km, engine hours or date, whichever comes first
- 36 standard service tasks ready on day one
- Work orders with parts, labour, fees, 15% VAT and approval
- Parts stock per location with reorder minimums
- Warranty periods on parts and repairs

FLEETANA

Inspections that lead to action

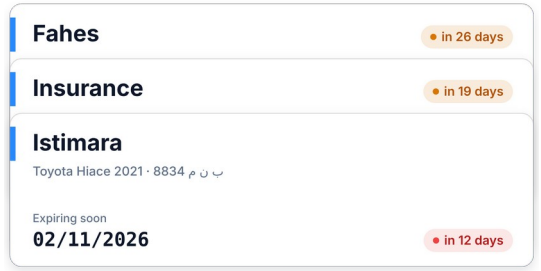

- Custom inspection forms for each vehicle type
- Drivers complete them in the mobile app, with photos
- A failed item opens an issue automatically
- Issues from Low to Critical, with alerts for the urgent ones

FLEETANA

Built for Saudi fleets

- Istimara
- Fahes
- Insurance
- SAR + 15% VAT
- km & engine hours
- English · العربية

Expiry dates live on each vehicle, and Home lists everything expiring in the next 30 days.

Made for fleets like yours

- Delivery & courier
- Construction & heavy equipment
- Distribution & retail
- Passenger & school transport

FLEETANA

How we get you running

01 Sign up

Create your workspace at fleetana.sa and invite your team.

02 Add vehicles

Vehicles, drivers and document dates, imported or added by hand.

03 Set your rules

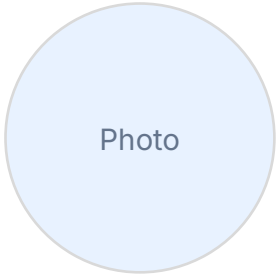

Service programs from the standard set, and your inspection forms.

04 Connect trackers

GPS trackers switch on the live map, routes and driver scores.
