FLEETANA

COMPANY PROFILE

Your whole fleet.
One place.

Fleet and cost visibility, built for Saudi fleets

FLEETANA

Who
we are

Fleetana is fleet-management software built in Saudi Arabia for the people who run vehicles.

- One platform for vehicles, drivers, routes, fuel, service, inspections and work orders
- Shows what every vehicle is doing and what every vehicle costs
- Our own GPS trackers, supplied and installed by our team
- Web app for managers, mobile app for drivers, in Arabic and English

FLEETANA

Vision & mission

VISION

Every Saudi fleet run on facts with the lifecycle optimized and efficient.

MISSION

One place to see every vehicle, its cost, its next job, and execution.

FLEETANA

01

The problem

Fleets run on spreadsheets, receipts and memory

FLEETANA

Where does your fleet's money go?

Spreadsheets

Service dates, plates and Istimara expiries live in files nobody updates on time.

Receipts

Fuel and repair spend sits in drawers and photos, so odd fill-ups go unnoticed.

Blind spots

Nobody can say which route a vehicle took, or how long it sat idling.

Chat threads

Checks, faults and approvals happen in WhatsApp, and nothing links back to the vehicle.

FLEETANA

02

The solution

Software and trackers from one partner

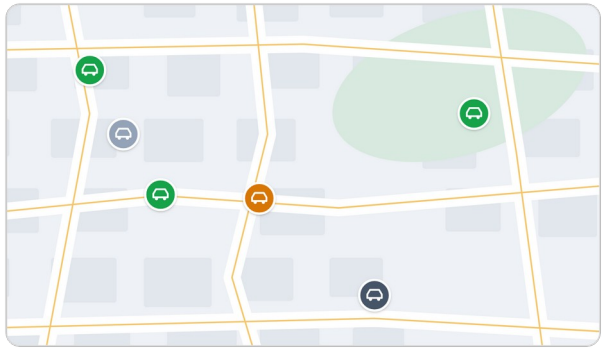

How Fleetana works

IN EVERY VEHICLE

Our GPS tracker

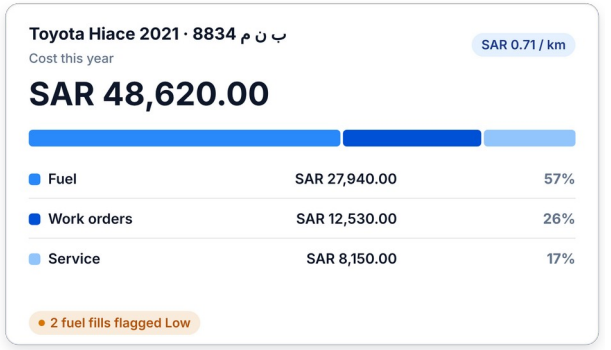

We supply and install a tracker that fits the vehicle, from pickups to heavy trucks.

ON ONE PLATFORM

Fleetana web & mobile

Location, trips, fuel, service and costs land in one place, for every vehicle.

IN YOUR DECISIONS

See, decide, save

Spot the waste, act on it, and watch the cost per vehicle come down.

Everything that touches your fleet

Vehicles & documents

Istimara, insurance and Fahes, with automatic reminders before every expiry.

Service & maintenance

Programs by km, engine hours or date. Due soon and overdue at a glance.

Fuel

km/L on every full fill. Low fills flagged.

Inspections & issues

Custom checklists with photos. A failed item opens an issue.

Work orders & parts

Parts, labour and fees, with 15% VAT and approval steps.

Live map & routes

Live positions, trip replay, optimised routes and driver scores.

FLEETANA

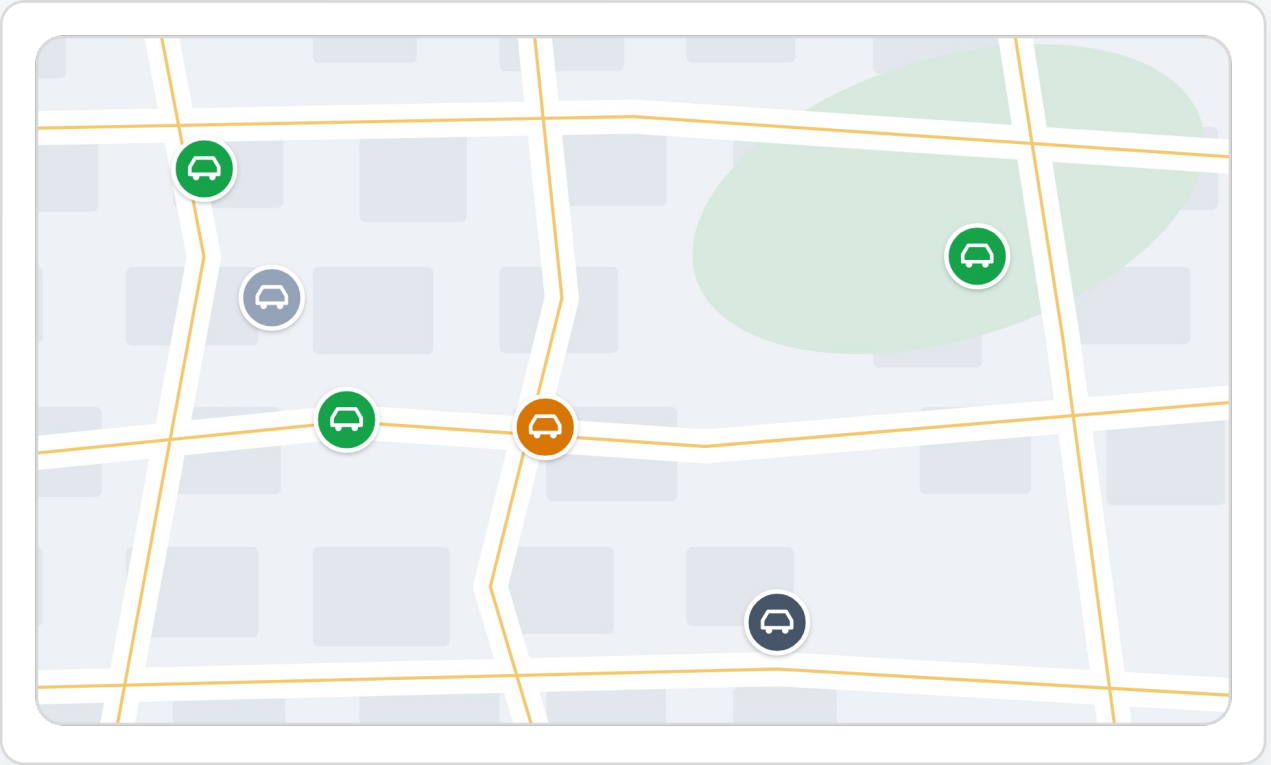

Know what every vehicle is doing

Live map
Every vehicle as moving, idle, parked or no signal, updated every few seconds.

Trip replay
See the exact route each vehicle drove, stop by stop.

Idle time
Engine-on minutes per trip and per day, for every vehicle.

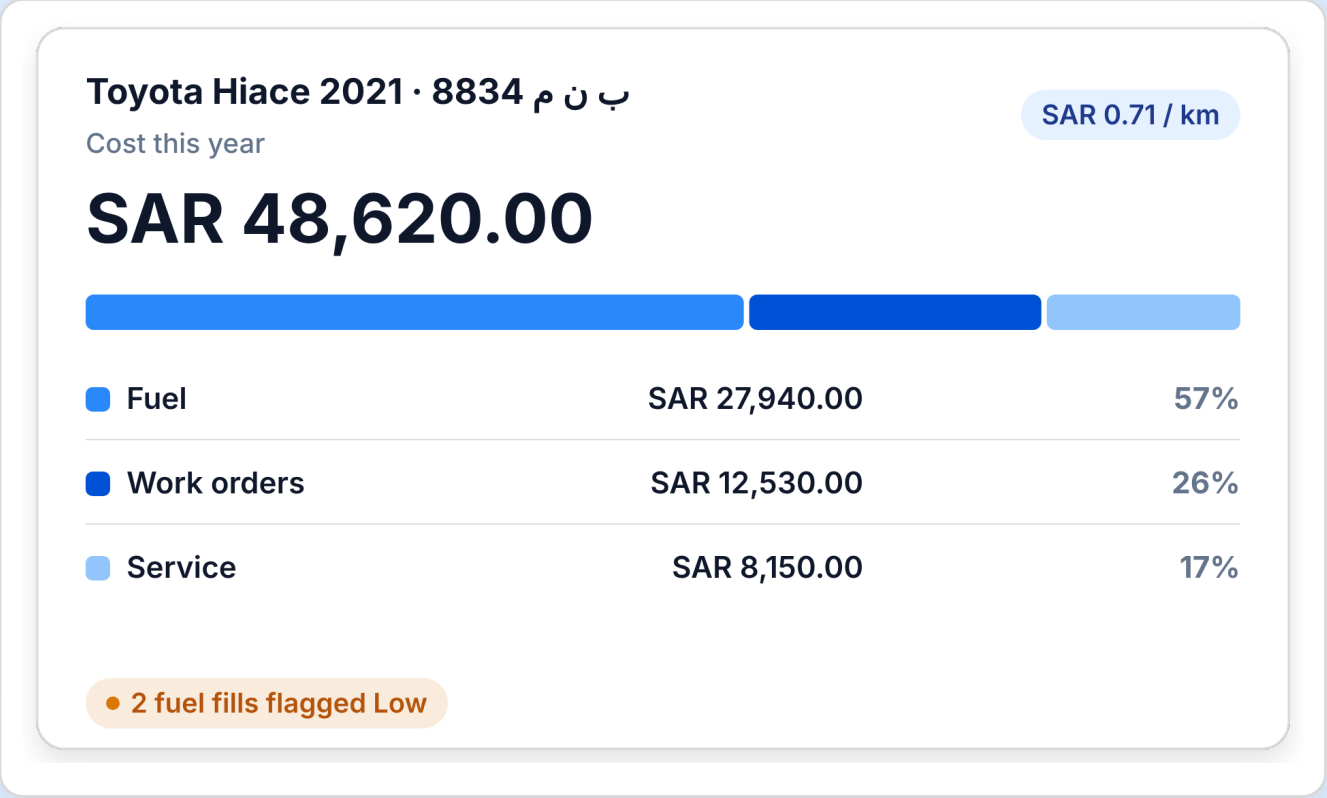

Driver scores
Harsh driving, speeding and collisions turned into a 0–100 score.

Fleetana GPS tracker

FLEETANA

See where your fleet's money really goes

1 **Cost per vehicle**

Fuel, service and work orders add up on each vehicle, in SAR, with cost per km.

2 **Fuel anomalies flagged**

A full fill below 70% of that vehicle's 30-day average is flagged Low.

3 **Every riyal itemised**

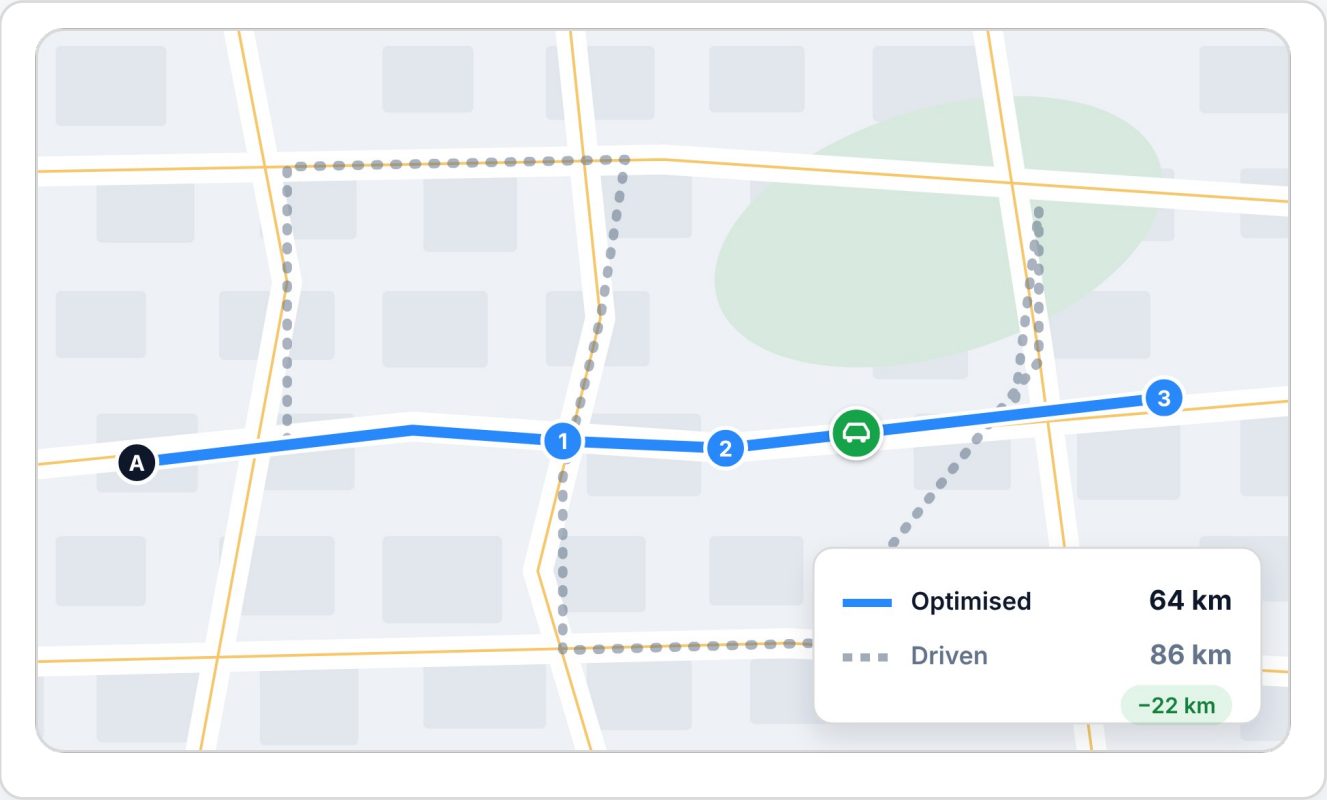

Work orders split parts, labour and fees, with 15% VAT.

4 **Warranty on record**

Check the warranty before you pay for the same repair twice.

FLEETANA

Shorter routes, less fuel

1 Optimised routes

Fleetana orders your stops into the shortest route before the vehicle leaves.

2 Planned vs driven

Compare the route you planned with the route actually driven.

3 Fewer wasted kilometres

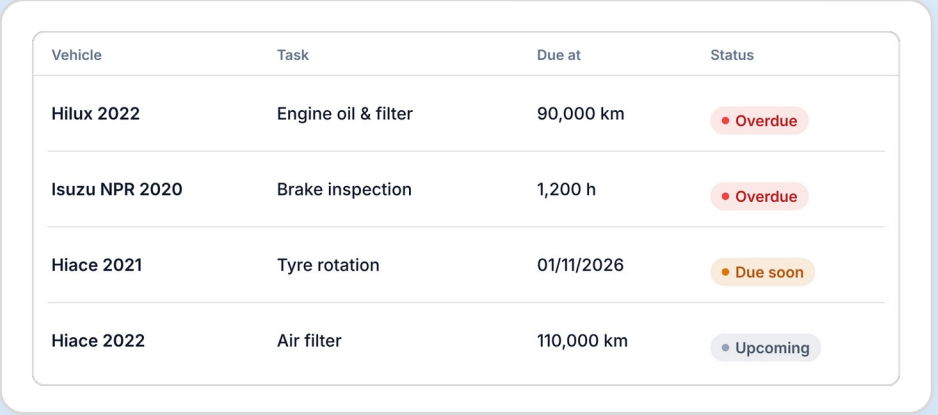

Every kilometre saved is fuel, time and wear you don't pay for.

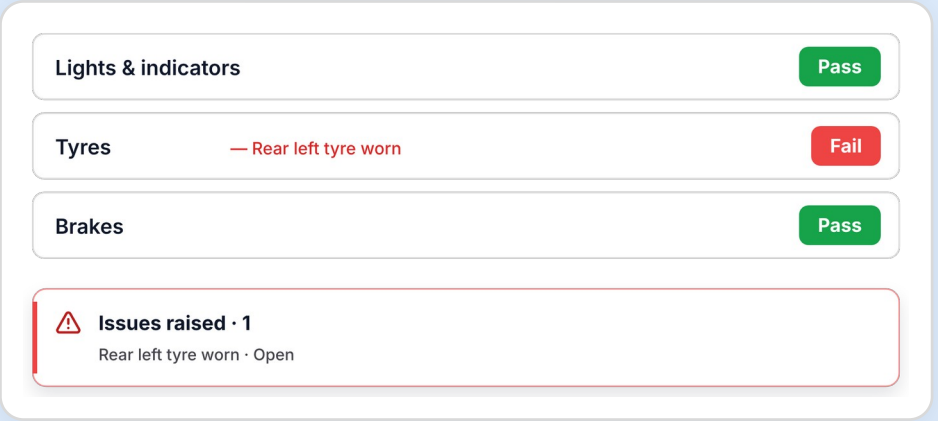

Fleetana GPS tracker

FLEETANA

Maintenance that runs on schedule

- Service due by km, engine hours or date, whichever comes first
- 36 standard service tasks ready on day one
- Inspections on the mobile app, with photos; a failed item opens an issue automatically
- Work orders with parts, labour, fees, 15% VAT and approval
- Parts stock per location, and warranty periods on parts and repairs
- Automatic notifications before every service, inspection and document renewal

FLEETANA

03

Our trackers

Hardware we supply, install and support

FLEETANA

Two trackers, every vehicle covered

TELTONIKA

FMC003

Plug-and-play OBD tracker

- Plugs into the OBD-II port in minutes, no wiring
- 4G LTE with GPS, GLONASS, Galileo and BeiDou
- Reads the vehicle's own odometer and fuel level
- Eco-driving, crash, towing and unplug detection
- CST-certified in Saudi Arabia

Best for cars, pickups and vans

SEEWORLD

R12L

Hard-wired tracker for any vehicle

- Hidden install, 9–90 V for trucks, buses and equipment
- 4G LTE with GPS and BeiDou
- IP65 dust and water resistant
- Remote engine cut-off and ignition detection
- Vibration, power-cut and over-speed alarms

Best for trucks, buses, equipment and theft protection

What each tracker unlocks

Fleetana feature	FMC003	R12L
Live map and trip replay	✓	✓
Idle time and driver scores	✓	✓
Route optimisation	✓	✓
Over-speed alerts	✓	✓
Tamper alerts (unplug / power cut)	✓	✓
Crash detection	✓	—
Fuel level and odometer from the vehicle	✓	—
Remote engine cut-off	—	✓
Trucks and heavy equipment (up to 90 V)	—	✓
